

Stamping Machine Instructions

1. Remove stamp assembly and attach your stamp with double sided tape to the back

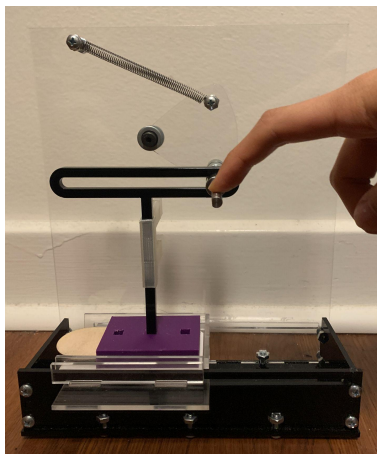

2. Slide stamp assembly back in until the holes on the top align. Place the ink pad on the bottom part of the machine.

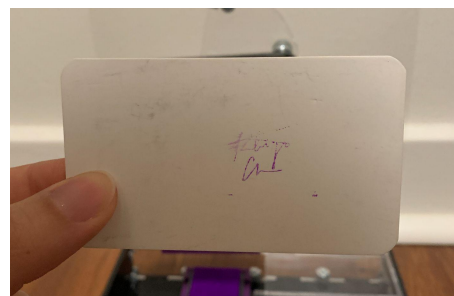

3. Press down then release.

4. Place the paper on the stamp surface then slide the tab over until it stops.

5. Press down then release.

6. Remove the paper and now you have your stamped card!
